Maintenance & Cleaning advice

Your floor has been professionally sanded
And finished with Bona HD Traffic floor seal. Matt or Silk Matt.

Please note - Light foot traffic may use the floor after 8 hours. Heavy wear should be avoided for a period of 72 hours after the final application of lacquer. For 8 days after the final application of the lacquer the use of detergents, polish and other maintenance products should be avoided.

Some useful cleaning hints

- We advise that a soft broom or vacuum cleaner with a brush attachment should be used to remove surface dirt and dust.
- Wash the floor using a damp mop (rinsing regularly) in warm water with Bona cleaner.
- Never use water that is too hot, and Never flood the floor.
- Waxed-based products are not recommended.

Some useful do's and don'ts

- We advise that all tables and chairs should be fitted with felt pads to areas in contact with the floor. (see accessory list below).
- Always lift heavy items of furniture, into place. *Please* never drag them. All wheeled items i.e. piano's, settee's and armchairs should be fitted with castor cups (see accessory list).
- Any mats should be removed and shaken frequently, and the floor beneath them cleaned.
- The wearing of stiletto heeled shoes should not be allowed at any time!

We recommend you use *Bona Freshen Up* to preserve the life of your floor.

Future care

- We recommend that your floor should be re – sealed periodically to preserve its life, we offer a free advisory service on this procedure. We would advise you contact us when you feel it necessary, to make arrangements to view your floor with no obligation.
- We advise that you should not attempt to reseal your floor without professional advice.
